

PRICE LIST 2022

The tent tee-pee(tipi, teepe) consist of the following parts. Each of these parts of the tent can be purchased seperately or even later.

1. Cover

We offer the fabric in several variants for seasonal or year around use.

2. Door

We offer 3 types of doors.

3. Lacing pins

Lacing pins are used to close the cover.

4. Rope

We offer a durable rope for tying the poles.

5. Flap pole + pole for the door

A rope stretched from the flaps is tied to this pole, which is in front of the tent entrance, we then close the flaps with the help of the rope. Poles for the door are used to stretched the door out.

6. Pegs

Whether the tent can withstand the strenght of the wind depends on quality of pegging.

7. Poles

Poles form a frame of the tent. Poles are also the most difficult part to transport.

1. Cover

MATERIÁL: Tent fabrics are in natural(gray) colour with hydrophobic and fungicidal treatment or other different colour shades, based on customer request.

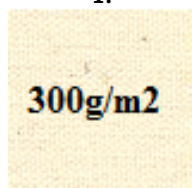

Tipi – for seasonal use

Price includes: Tent tee-pee (tipi, teepee), which is the outer cover sheet, the canvas door, the canvas tent bag, the rope to stretch out the flaps.

2. Door

The tent includes a canvas door, which is included in the price.
Only one type of the door is supplied as a standard, type **A door**.
For an additional fee, instead of type **A**, type **B** or **C** can be selected.
The door can be also purchased separately as a spare part.

Door A (Standard)

Door B (american)

They have a different cut than the door A.
They hang inside from the top of the tent.
Using this door will prevent the flowing water from getting into the tent. Suitable for year round use.

Door C (zip closure)

They have the same use as a door B (american).
This door has sewn-in zipper in the middle, which allows easier access to the tent.
Suitable for year round use .

PRICE LIST 2022

Lining Accessories

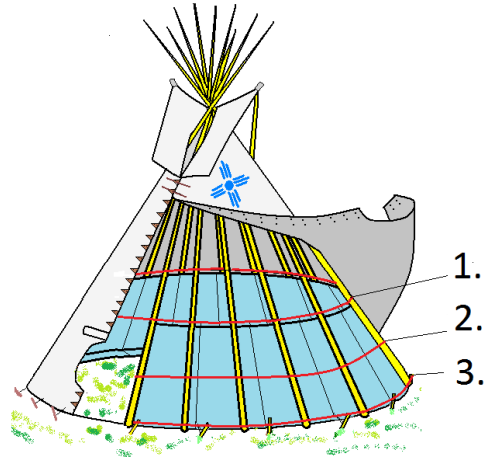

1. Lining is connected to the rope(1), which we tied at the top around the poles, around the entire perimeter of the teepee, at the height of about two meters. This rope comes standard with the lining and is included in the price.

2. The rope is tied for a perfect stretch of the material, but it is not necessary (an extra charge).

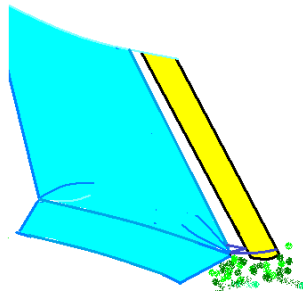

3. The bottom part of the lining could be attached:

- **I.)** can be tied by rope – this choice is more practical

- **II.)** pegs.

PRICE LIST 2022

HAT- rain hat

It is an alternative way of securing the teepee against raindrops, which can get into the tent even when the flaps are closed. This is a hat placed on top of the poles, which must be shortened when using the hat when assembling the tent to prevent it from water getting under it.

The rain hat is simply a round piece of canvas that is draped over top of the poles to prevent it from raining into the teepee. Your order also includes the rope you will need and pegs to anchor.

PRICE LIST 2022

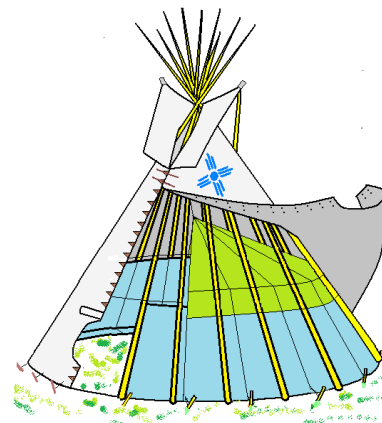

OZAN – Roof sheet

Ozan serves for the maximum comfort and protection against drops that can get inside through poles. It also keeps inside the heat from the fire before it escapes. Ozan is a roof awning which is hanging above the lining.

OZAN is offered in two types A/B

Ozan A)

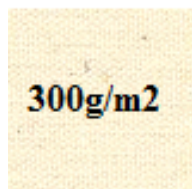

By default, the manufacturer offers the ozan in size to cover half of the teepee.

It connects mainly in the back opposite the entrance and creates space for a bed beneath it.
